

# Challenging offerings of study and research in Belgium

## *Description*

The Belgian Nuclear Research Centre SCK•CEN is one of the largest research centres in Belgium with laboratories in Mol and registered office in Brussels. Today, about 700 employees advance the peaceful industrial and medical applications of ionising radiation and contribute to SCK•CEN's overall purpose: maintain a centre of excellence for research and peaceful applications of nuclear science.

Several topics are available for apprenticeship and theses on a Master, PhD and post-doc level. The topics can be found on the website of the SCK•CEN Academy for Nuclear Science and Technology.
